Important Uniform Care Instructions

As a member of a CVHAA Lady Patriots Softball team you are assigned and entrusted with the care of your uniforms.

- Please read carefully -

It is very important that great care be given the components of your uniform sets:

- ~ They must be washed in [cool water](#) by themselves on a delicate or gentle cycle.
- ~ Please do not wash them with other clothes as this will tend to prick the material.
- ~ Lastly, do not dry the uniforms in the dryer or iron them. The dryer will shrink the garment, and the adherence of the lettering and numbers may be affected. After the uniforms are washed, please dry them by laying them flat or hanging them up.

These uniforms are a reflection of our team and organization so please take excellent care of them. The Uniforms will be returned to CVHAA Lady Patriots Softball at the close of the season.

Best Wishes for a winning season!
